

PPGC Mentor/Advisee Survey

The goal of the Mentor program is to match those with a wealth of experience to those who wish to draw upon and learn from that experience. The expectation is that the Mentor and Advisee, once matched, would meet to get acquainted, discuss mutual expectations, and keep in contact after that first meeting in the manner most convenient for them. The final question for Advisees at the bottom of the form is designed to help us make the best match possible without intending to create expectations that we cannot fill.

Are you interested in being (check one): ___ Mentor ___ Advisee

Name: _____ Title: _____

Name and address of organization: _____

Phone: _____ E-mail: _____

Time in current position: _____ Time in development field: _____

Other positions held in development and time in those positions:
